Batocera PC Setup Diagnostic Kit

Free preview | three routes | one page

WHAT IS INSIDE

A **The PC does not reach the Batocera menu**
Black screen, firmware splash, or a boot loop before EmulationStation.

B **It boots, but the controller or display is wrong**
Menu appears, but input, resolution, audio, or the second display does not work.

C **It worked, then a change broke it**
A update, new GPU, new drive, or config edit caused a regression.

For Batocera PC. Full kit: multi-page guide, fillable worksheet, and retest/recovery checklist.

The full kit is a download. Live one-to-one help is separate, through Request a quote.
